Mr John Mantesso

Interlandi Mantesso Pty Ltd  
Level 1, 459 Bridge Road, Richmond 3121

Dear Sir,

**RE: ASSESSMENT OF APPLICABILITY OF THE BLANKET PRELIMINARY  
GEOTECHNICAL ASSESSMENT OF WHITE HORSE VILLAGE TO WHV PARCEL B,  
CABIN 9 - ADDITION OF LOWER GROUND FLOOR**

It is understood that it is proposed to include a lower ground floor at Parcel B, Cabin 9 at the Whitehorse Village (WHV), Mt Buller. This proposed lower ground floor is shown on Interland Mantesso Architects drawing no.s TP1.00 Rev F, WD1.01 Rev A and WD1.02 Rev A, dated June 2024. This cabin has already been constructed. To obtain the required planning permit from the Department of Transport and Planning it is necessary to conduct a preliminary geotechnical assessment of the site with specific reference to existing and potential instability.

Between 2015 and 2021, Phil Styles & Associates Pty Ltd (PSA) conducted several such preliminary assessments for the WHV complex, as well as providing geotechnical advice to the constructor. The results from these previous assessments were presented as a single report in 2020, PSA reference "PSA0203-01\_WHV Preliminary Geotechnical Assessment - Consolidation Report", dated 10 February 2020.

The originally proposed Parcel B, Cabin 9 was within the scope of this consolidated report. It is understood that the construction of a lower ground floor will require additional ground penetration as the existing structural design of Cabin 9 had not allowed for the inclusion of a lower ground floor. The inclusion of a lower ground floor still falls well within the scope of our previous studies and report.

The assessments as previously stated in PSA report PSA0203-01 are therefore applicable to the revised Parcel B, Cabin 9.

A copy of our Certificate of Currency for Professional Indemnity Cover is included in Attachment A.

We trust this meets your present needs. Should you require clarification of any aspect of the report, please contact the undersigned.
