

Notes

1. The diagram is a guide for a typical layout of a driveway access for a rural property a 26m B-double.
2. This diagram is based on the VicRoads/DoT AGRD Part 4 Typical Access to Rural Properties GD No. GD4010A. The guide was developed in the interest of road safety and to protect the arterial road pavement at the access location.
3. Slight variations may occur after site inspection, analysis and approval of the location.
4. The pavement composition shall be in accordance with that shown on GDA4010A. Any proposed alternative pavement designs shall be undertaken in accordance with VicRoads.
5. Pavement materials and earthwork layers need to be in accordance with dot standard sections

and/or local government specification requirements.

6. A planning permit is required for a new access or alteration to an existing driveway and may be required for the removal of native vegetation.
7. A traffic management plan must comply with the road management act and applicable codes in relation to any works undertaken within the road reserve.
8. Truck warning signs & guide posts should be installed in accordance with Austroads Guide to Traffic Management & VicRoads supplements.
9. The driveway access construction and maintenance is the responsibility of the property owner. maintenance also includes associated drainage works.
