ADVERTISED PLAN

Dear Michael,

Diapur Wind Farm – PA1700251-A – Request to amend Planning Permit

Please accept this as a request to amend the planning permit for the Diapur Wind Farm –

PA1700251-A. The request is regarding the installation of a met mast on the land. The amendment is required as there will be a met mast on the land permanently. The definition of the use of the land has been amended to include “met mast” in the project description, the changes have been captured through track changes in the attached planning permit.

Accompanying this request is:

- Plans showing the location of the proposed met mast;
- Elevations of the proposed met mast; and
- Aviation Assessment

Supporting information includes a plan showing the location of the existing met mast with a tracked change permit.

There is an existing 40m met mast which has been on the land for 2.4 years. The attached plan shows the location of the existing met mast which is in between the two wind turbine generators. The existing met mast will be removed prior to the new met mast being erected.

The proposed met mast is no taller than 100m and is located well away from Lawloit-Diapur Rd (in excess of 1km). The new met mast will sit behind the wind turbines which will be erected on the subject land during 2020. The mast will be difficult to discern in the context of the turbines. The new met mast will not result in any undue amenity impacts nor visual impact to surrounds.

I trust that we have provided all the information required in a convenient form. Should you have any further queries please don't hesitate to contact me on my mobile on 0408 587 095, or by email at fi.cotter@energyforms.com.au.

Yours sincerely,

Fi Cotter
